CHALLENGES

Happy Days encountered challenges like limited funding and breaking through as an established organisation that is here for the long run. Happy Days have used their first year as a pilot and are continually learning.

LOOKING AHEAD

"We have been lucky that we have been able to build this around our participants rather than trying to fit them into a pre made box. We have so many ideas and there is a lot of potential for Happy Days. We have amazing families who are extremely supportive which has been great for building sincere partnerships."
