

CYCLE RECYCLE

Saving unwanted bikes from going to landfill and causing more pollution. Then servicing and giving each bike a second chance at freedom provided to a family in need at a low cost.
newrycyclerecycle.wixsite.com

“We service and refurbish them and we supply them back into the community at an affordable price. The idea is to help people improve their mental, physical or emotional well-being at a very low cost.”

-Cycle Recycle Newry

SOCIAL IMPACT

- Provide affordable solution for wellbeing in the community by promoting cycling
- Provide employment opportunities
- Environmental impact reducing the number of tonnage of bikes going to landfill year on year from a throw away society

AT A GLANCE

EST: 2013

Location: Unit J1 WIN Business Park, Newry, BT356PH

Service: Second-hand bike sales, service and repairs as well as safety gear and bicycle accessories

CHALLENGES

Since covid the number of bikes ending up either in landfill or being donated has fallen due to austerity across the country to working families in particular.

LOOKING AHEAD

Gerard wants all families and organisations to consider the future of the planet and would ask them to touch base with him, so that he can recuse bikes/trikes etc that would end up in landfill to enable other families to have access to low-cost affordable bikes so that there is equality for all.
